

Re: Fats, Oils and Grease (FOG) Control Ordinance #307 (Ordinance)
North Cornwall Township (Township)
Approved Haulers

On behalf of North Cornwall Township,

We would like to thank you for your cooperation in registering as a Generator in the FOG Program and actively helping to prevent the introduction and accumulation of fats, oils and grease into the public sewer collection and conveyance system.

Section 10 of the Ordinance #307 adopted (December 18, 2018) states that *“Only grease haulers registered to operate within North Cornwall Township shall be utilized.”* Additionally, it is important to note that the term “Grease Hauler” is defined in Section 2 of the Ordinance as *“...the user who collects and transports, or transports and disposes of, grease interceptor waste, oil/water separator waste, seepage, and other liquid wastes ...”* which may include but is not limited to the collection, transportation, and disposal of used cooking oil and/or used motor oil.

Accordingly, the Township is pleased to provide you with the following list of currently approved Grease Haulers registered to operate within North Cornwall Township:
